Artículo Neutro

Neuter Article

Singular	singular
the	lo

The neuter article is used before adjectives adverbs when the noun or verb is implied, which sometimes doesn't exactly match English grammar:

- *He is **the** best!*
- *Vomiting is **the** worst!*
- *I only do **what is** most important.*

When followed by *que*, which roughly translates as *that which*, but often has the meaning of *the things* or *whatever* and has the connotation of being an unknown set of things:

- *I do not understand **the things** Isaiah wrote.*
- *We ate **whatever** could be eaten.*

El artículo neutro se usa antes de los adjetivos o adverbios cuando el sustantivo o el verbo se implica, lo cual no siempre sigue la gramática de inglés:

- *¡Él es **lo** mejor!*
- *¡El vomitar es **lo** peor!*
- *Solo hago **lo** más importante.*

Cuando es seguido por *que*, mayormente con la connotación de ser una amalgamación de cosas desconocidas:

- *No entiendo **lo que** Isaías escribió.*
- *Comíamos **lo que** se podía comer.*
